Summary

Zheng-Meng Zhai is a Ph.D. candidate in Electrical Engineering at Arizona State University, under the supervision of Prof. Ying-Cheng Lai. He received his Bachelor's degree in Electronic Information Science and Technology from Southwest Jiaotong University, and his Master's degree in Theoretical Physics from East China Normal University, under the supervision of Prof. Ming Tang. His background is in physics and electrical engineering, and he is interested in nonlinear dynamics and chaos (e.g. chaotic dynamics reconstruction, tipping points, symbolic regression), and machine learning (e.g., transformer, reservoir computing, LLMs).

Education

Arizona State University	**Sep. 2021 – Now**
Ph.D. of Electrical, Computer and Energy Engineering	*Arizona, USA*
East China Normal University	**Sep. 2019 – June 2022**
Master of Theoretical Physics	*Shanghai, China*
Southwest Jiaotong University	**Sep. 2015 – May 2019**
Bachelor of Electronic Information Science and Technology	*Sichuan, China*

Talks

SIAM Conference on Applications of Dynamical Systems (DS25)	**May 2025**
Learning to learn ecosystems from limited data - a meta-learning approach	*Denver, Colorado, USA*
APS Joint March Meeting and April Meeting 2025	**March 2025**
Learning to learn ecosystems from limited data - a meta-learning approach	*Anaheim, California, USA*
APS March Meeting 2024	**March 2024**
Tracking parameter in nonlinear dynamical systems using machine learning	*Minneapolis, Minnesota, USA*
APS March Meeting 2023	**March 2023**
Model-free tracking control of regular and chaotic trajectories with machine learning	*Las Vegas, Nevada, USA*
The 16th Chinese Conference on Complex Networks	**October 2020**
When did COVID-19 start? - Time zero inference	*Anqing, Anhui, China*

Service

Journal Reviewer: APL Machine Learning, Chaos, IEEE Transactions on Artificial Intelligence, IEEE Transactions on Emerging Topics in Computational Intelligence, IEEE Transactions on Neural Networks and Learning Systems, Nature Communications, Neural Networks, Physical Review Applied, Physical Review E, Physical Review X, PRX Energy, etc.

Grants and Honors

- Graduate College Completion Fellowship ($26,600)
  Nominated as 1 of 2 students from the campus-based Ph.D. program   2025

News and Media Coverage

- Helping robots follow a new path, *Nanowerk* (Oct. 2023)

- Helping robots follow a new path, *ASU News* (Oct. 2023)
